

# WHO WE ARE

Founders John, Ana and John Israel Lamon

## Vision Statement:

The Hands of Christ, Inc. desires to be an efficient, faith-based organization through donations and volunteer services to provide medical care to the poor of Honduras so that they can experience physical and spiritual healing.

## Mission Statement:

The Hands of Christ, Inc. exists to share God's love by offering low cost medical care with dignity and gentleness to the poor of Honduras.

# THE NEED

The high cost of food is contributing to famine among the poor of this wonderful country. With no extra resources to depend on, the economically disadvantaged live day to day without government assistance and just enough money from their jobs to barely survive.

Many cannot afford the basics of beans, rice or eggs that they need to survive. According to published reports, many survive only on tortillas and salt. Many find themselves working very physically demanding jobs without the energy and stamina necessary to do it well. While we here in America are seeing a very slow economy and are lamenting the recession and its effects, consider Honduras' state of the economy being several times worse on a day to day basis. In the past the government was able to subsidize the cost of gas, electricity and other necessary commodities of life, but that is no longer the case.

Your donation can help us provide medical care and medicines for these children of God who have no other resources.
